Dear Doctor Banda,

I am happy to hear of your efforts and achievements. I am sorry that I always miss your presence in each time you visit Ghana. We always rejoice whenever we hear of your safety in your political field in your beloved Country and the Africa as a whole.

We are confident and can assure you that our great leader, Ogyefuo Doctor Kwame Nkrumah favours your efforts.

You have already fought and won the battle, we in Ghana entreat you to finish it wholly. I am already in possession of the Ghana Overseas and African Countries passport. I have every right to pay you a courtesy visit ~~you~~ at any time convenient.

Now introduction: - I am Annan Asiamah Ampomah, a qualified Nurse physiotherapist, proprietor of the New Era Treatment Home, started with you at Old Tafo, Kumasi, since 1954 and through your fatherly advice transferred me to Efiduasi during the threatening of the National Liberation Movement in Kumasi and its suburb in the year 1956. Enclosed herewith my recent personal photograph for your recognition. I shall be pleased to hear from you in no longer time.

All my colleagues here are anxious to hear from you, my dear Doctor.

Our hearty congratulations to you and all your ministers in Nyasaland.

Yours Very Sincerely,
A. Ampomah

With best compliments
