To Whom it May Concern

This letter will introduce Dr. Donald A. Brody. Dr. Brody is my authorized biographer.

I would be most grateful if any and all sources of information concerning my life were made available to him for research purposes.

In addition, Dr. Brody has full authority to engage in negotiations concerning the publication of my authorized biography and any related works with the proviso that all final decisions will be made, in writing, by me.

Thank you for your cooperation.

Yours truly,
