17.1.67.

Dear Father,

I have been able to spare some few minutes tonight from discussions, lobbying etc. and I thought I should drop you a note. To begin with, I must confess I have never seen in my life such a huge human problem. It has to be seen to be believed. Poverty, misery and human suffering is our daily sight. For the first time in my life I feel compelled to obey your rule "were cuss the crocodile till you have crossed the river".

Perhaps I should say this. Nehru would not have kept this country together without solidarity and the unity he has been able to give in the Congress Party. He is now in Bombay where Krishna Menon is under fire but Nehru has done wonders to back him and there is no doubt that Menon would be re-elected. Unity and solidarity - yes this is what is keeping the country intact otherwise

India would have fallen apart or fallen prey to Communism. I shall have a lot to tell when I come back.

However much I was convinced upon solidarity and unity when I was at home and after ~~hard~~ travels all over Africa, I have been made even more aware now that our problems will actually start when we are free. In Tanganyika trade union boys are making things difficult for Julius I understand and in Kenya matters are going from bad to worse. We in Nyasaland must count ourselves as being extremely lucky that God gave us your leadership. If for nothing else, all of us must dedicate ourselves to serve you and to follow you to death, in order to ~~see~~ save the nation from the worse which can easily result when the country is exposed to intrigue and machinations of foreigners.

"To send Kanning to death" must be the motto
of every sane nationalist in the country. ~~For~~ I
intend to write a series of articles on this subject
I come to bring home the idea into the
minds of the Indians that the real battle
starts when you begin to manage your own
affairs and therefore ^{it is} now more than anything
before that your leadership is vital and
indispensable if we want to keep
Myanmar intact.

There is not much in the papers
here about Myanmar these days but you
would be glad to learn that you are the
hero in this conference among African
nationalists. The policies ~~present~~ pursued in
Tanganyika as regards citizenship have
caused disgust and resentment among
Africans and the development of tribalism
in Kenya and Uganda ~~have~~ have made
these countries regarded as lost to African

the cause of African nationalism. I had ^{upward} students ^{that} ~~was~~ ^{can with and they} were begging me to tell you to keep up your "extremism" ~~yesterday~~ even if only for the sake of saving East Africa from what they call "cosmopolitanism". May I take this opportunity to convey the message?

The conference has revealed to me that as long as we are dependent we shall be shielded off from many schemes. It was a great surprise to me to learn that Canada, Australia, Pakistan and New Zealand are giving scholarships for undergraduate studies in their countries ~~specially~~. This scheme is specially earmarked for Africa. Either Britain or Rhodesia has been hiding these facts from us. I have accordingly done two things.

I have informed the Conference that we have our own scholarship committee and I am also contacting various countries with a view to establishing bilateral ^{arrangements} ~~agreement~~ with them. Incidentally, the Conference is thinking along the same line.

We in the Colonial Territories and ^{Territories} ~~States~~ have clashed with Britain on undergraduate studies. Britain has been insisting on the Commonwealth Scholarship and Fellowship Plan being restricted to post-graduate studies. We opposed this because it virtually meant that we would not ~~derive~~ benefit by the plan at all and we will continue to depend upon expatriates from U.K. Australia and Canada supported us on this and these two countries are keen to enter into bilateral arrangements with Colonial Countries & Africa. As for the last two countries

the in opposition to Britain entering the common market is the motive behind this. This however does not worry us.

It was a pity the two Civil Servants (from here) and ministers from Ghana and Nigeria respectively were and are being used to block the ~~through the~~ block the way of us in the

Colonial territories but you can rest assured that the fight is going on. It is disgraceful how Africa can be used to beat Africa.

Enclosed please find cuttings which are self-explanatory. May I add that the Federal delegation is the most unhappy one here. It is being tormented by Africa for help to unite.

More when I come
With best wishes and prayers from

(Kanoyama Chisao)
