Dear Sir,

The news-agencies have recently been distributing some serious news concerning your country.

These news have made us in Finland well aware of the fact that you as the leader of the only party in your country have again started your brutal chase of the group of Jehovah's Witnesses living in Malawi. Your sadistic and violent persecution of Jehovah's Witnesses chocks all the peace-loving people throughout the world.

By staying firmly neutral in all the international and national questions of politics they only obey God more than manmade governments. For the same reason they do not either pay back evil with evil by forming terrorist groups to fight against the government. They are absolutely neutral.

It is also known that you yourself confess Christianity as an elder of The Presbyterian Church. In that respect one can only ask:

- are the atrocities you are committing against peaceful people the way you view true Christianity?
- what kind of a Christian has a conscience that allows him to use police force to gather people to concentration camps, comparable only to the Nazi camps of the World War II?

Everybody can remember what happened to the Nazi Government. But in case the public opinion will not change your actions you still are, as the man responsible, accountable to the Judge of The Universe, Jehovah God.

So, you can be sure that your hostility against Jehovah's people calls for Jehovah's punishment to you at His due time.
