

P. O. Box 538,
Blantyre,
Nyasa Land.

5th Nov. 1962.

My dear doctor,

The enclosed letter was collected from the Post-office to-day, which, as you can see, is rather urgent and important.

I hope you had a safe and enjoyable journey from Malawi to Tanganyika up to Cairo. We were kept informed through the Tanganyika Broadcasting Corporation about your arrivals and departures in the respective countries. And I thought the visits were worth it.

We are all well here. We have had at least four rains since you left.

I hope you are keeping well and that you will try as much as you can to have some rest at times.

P. T. O.

If you can manage it, please
have a medical check up.

Wishing you all the success
in the forth-coming Constitutional
tasks.

With kindest regards.

Yours sincerely,

Cecilia Hodgkins
