Helsinki, 1976 02 11

Dear Sir,

I am aware of the unjust way in which your government has treated the Jehovah's Witnesses.

It is time you realized that you have done wrong. Examine the facts!

I am sure that Jehovah's Witnesses have not caused any trouble to your country or to private persons by their activities. Jehovah's Witnesses will not cease worshipping their God and preaching about Him, however difficult you may make it for them. They follow the teaching of the Bible: "It is better to obey God" (Acts 5:29). Nor will they rise in rebellion against the government and thus pay back evil with evil.

You can be quite sure that Jehovah God will punish you if do not stop behaving in this way.
