Dear Sir,

I am aware of the leading part you have played in the sadistic action which has been taken against the Jehovah's Witnesses in the Republic of Malawi.

in The Federal Republic of Cameroon

It is time you realized that you have done wrong. Examine the facts! I can tell you that Jehovah's Witnesses are not treated in such a sadistic way even in countries behind the Iron Curtain.

Jehovah's Witnesses will not cease worshipping their God and preaching about Him, however difficult you may make it for them. They follow the teaching of the Bible: "It is better to obey God" (Acts 5:29). Nor will they rise in rebellion against the government and thus pay back evil with evil.

You can be quite sure that Jehovah God will punish you if do not stop behaving in this way.
