

Department of Natural History.

DAVID S. JORDAN, Professor.

CHARLES A. GILBERT, Assistant.

The printer has begun his work again,  
Urolophus & the rest went thro'  
the grind to-day.

Atherinopsis californiensis is not a species of Chirostoma  
vera, & may stand as genus Atherinopsis, Belone exilis

is not a true Belone, having no gill rakers, & must go into  
Tylosurus as T. exilis. (lm) J+H.

Indiana State University,

Bloomington, Indiana, Oct 11<sup>th</sup> 1880.

Dear Friend,

Professor Baird's letter  
to Mr. Gilbert referred to Mexican  
fish, which he does not propose  
to distribute. Now that you  
have Günther, is that Neodon  
D. maculatus?

C. anomalus Cooper, Brown small, Ayres,  
Embiotoca furcata (Grd.) J+H,  
Un. xanti Gill, Serr. nebul. (fm) Stead  
Serr. cl (Grd) Stead, Serr. mac. Stead,  
Manta birostris (Walb) J+H, or Cerat.  
bir. (Walb) Goode, Squatina angelus  
Duméril.

Susan & Edith sends regards  
& invite you to our Thanksgiving turkey.  
Give my best respects to your  
parents.

Cordially yours.

David S. Jordan,

Read over the proof of your list of fish before printing.

Miss Rosa Smith,  
San Diego,  
California
