Pres Lemuel Moss L. L. D.

Pres. Indiana State University
Bloomington

Dear Sir:—

I send to you by this mail 25 circulars containing information in regard to a professional course of study for college graduates. My purpose in sending these is to have them distributed among the members of the senior class who intend to teach. May I ask you to see that they are put into the hands of some one who will see that this is done? We are making our best effort to make this course of the most practical value to those who pursue it.

Very Truly,

Geo. P. Brown,

Pres. Ind. State Normal Sch.
