

INDIANA UNIVERSITY,  
SEP 25 1882

*Samuel Moss*  
*Pres*

Peru Ind

Sept. 23, 1882.

*Samuel Moss,*

Dear Sir,

I must beg you to excuse me for not writing to you some time ago and informing you of my intention of remaining at home this year. I have no doubt that you learned of it at the beginning of the term as a number of the students knew of my intention. I hope, however to return next Fall and will try to bring some one with me. Miami Co. is not entirely unrepresented at the I. U. as I understand one of our High School graduates went down to enter. I am glad to hear that this year's enrollment is large and all things promise a most profitable session. I do not expect my own year to be totally without results and I hope to return to Bloomington next year better able to profit by its advantages than I

have heretofore. Our High School here I believe is doing good work and there is no reason why, with a little missionary work, it will not send a yearly delegation to the University. But a few days ago I had a talk with our City Supt., Mr Manning who met you at the meeting of teachers at Indianapolis. I am doing some occasional work on the paper for Mr F. J. Reed. He oftenspeaks of you. Hoping that continued and increasing success will attend your efforts and the University I remain

Respectfully Yours  
Frank Fetter.
