Rev. T. Moss D.D.,

Dear Dr,

The enclosed slip will indicate to you something of the effort I have been making here to create a little extra interest in the Ministry. I think we will have several delegates from the list nominated. Gen. Drum and Col. Bright positively promise to attend the Indianapolis meeting on the 17th, and I expect to be present. Mr. Wise and one or two other of the Congressmen promise to go, if certain legislation they each have in hand does not prevent - but in the condition of Congressional matters we can hardly count on them.

I hope you will be prepared to give us the benefit of such statistics and facts at the meeting on the 17th, as will enable us to bring all the abundance to the hearty support of yourself and the Trustees in its measures to be urged upon the Legislature

Very truly
John W. Foster.
