Dr Lemuel Moss

Pres. Ind. University.

My dear Sir.

I find from your catalogue that the students who graduate from our High School here are not admitted to the Freshman class in the University. If the arrangement can be made I should like very much to have our graduates graduate this privilege. I will give you our High School course.

1st year. Latin Grammar and Composition, Algebra, Philosophy (Steele's) and Rhetoric, and Physical Geography.

2nd year. Caesar, four books, Algebra Complete, Chemistry (Steele's) Rhetoric Complete and Geology.

3rd year. Virgil four books, Plane Geometry, English Lit. Geology, and Elements of Astronomy together with review of common branches, Algebra and literary work weekly.

I send you a catalogue of our schools.

Very sincerely yours.

Robert Gillum
