Knightstown, Apr. 2^d, 1883.

Demuel Cross,

Pres. State University,

Sir:-

It becomes my duty to inform you, my brother, Earl K. Glass is quite ill with fever. Last Monday we were seriously alarmed at his condition but at present, he is much improved and we have strong hopes of his recovery.

It will be several weeks before he can resume his place at college but we hope it will not prevent his finishing the year's course.

Very Respectfully

Ida Glass.
