Pres't

Dear Sir: I am directed by Mr. Bloss to send you the enclosed syllabuses on the subject of U. S. History which have been prepared at his request by the persons named in the enclosed letters.

You will please examine and arrange these according to the outline of work prepared last year.

It is also requested that you have your work done at as early a day as convenient in order that the work may pass through the hands of a revision Committee and be completed by them before the next meeting of the State Board.

It is hoped that the Syllabuses sent may be of help to you in the preparation of an outline for 1882.

Yours Truly,

J. L. Smith
