

PUBLIC SCHOOLS.

New Albany, Ind.,

May 31st 1882

Dr. Lummel Mass,

Bloomington, Ind.

Dear Sir:

Your favor of a recent date came duly to hand, and would have been answered sooner except for ill health and press of work.

I will have a room in which to hold the examination of applicants for State License, ready for you in our High School building, which is located in the central part of the city.

I hope you will feel free to command me for any other assistance you may need in conducting the examination. Respectfully yours,
E. J. Jacobs,
