

THE CALVERT LITH. CO. DETROIT.

6-19 1882

Dear Pres^t. Messrs

Your official notice of the honor conferred on me by the University was duly rec^d. Some of my friends heard it a couple of days before I did and until your notice I supposed there must be some mistake about it -- I am grateful in this assurance on the part of yourself & the Board of your confidence & esteem, but I would surely feel happier in accepting it, if I could see that I had ever done enough for science & letters to merit it.

With very kind regards
Jephth Moore
