Dr. Samuel Moss:

Bloomington, Ind.

Dear Sir,

As I stated to you at Jeffersonville, I was made chairman of a committee by the meeting of Alumni at the Grand Hotel last winter. The object of that committee was to arrange for a large meeting of Alumni at next meeting of the State Teachers' Association that strong influence might be brought to bear upon the Legislature. It was suggested that we present some plan at the meeting of Alumni at the State University in June. I do not feel free to do anything until I hear from you what you have to suggest, as the work of the committee might be counter to the plan you may have in mind. I have had no time to

give the subject any thought and
from the present outlook, I do not see
when I can do so before June. My work
is pressing. It seems to me that
the chief thing the committee can
do is to determine a time and place
for the meeting next winter and give
notice to the Alumni with a strong
appeal to be present. All specific
plans and work, it occurs to me, will
originate with you. Have you any
suggestions as to what, more than I
have mentioned, the committee can
do? Your son-in-law, Mr. Trendley, is
a member of the committee.

Wishing you and my Alma Mater pros-
perity, I am

Yours Respectfully,
A. A. Egg.
