Dear Sirs: - Mr. James Griggs, of Mooreville, ~~came~~ a student of D.C., came here Saturday to get a statement of his grades so that he may comply with the entrance requirements of the University. I looked carefully through the record book and failed to find a single grade recorded for Mr. Griggs. The Board tells me that Mr. Griggs made two extra credits, having thirty four while only twenty two are required by the present course ^{for graduation}. Of all the poor efforts at keeping records the Mooreville school constitutes the greatest failure I have ever seen. I am very sorry but I cannot help the matter by talking about the failure of the former management of the school to do its duty. If you want me to do so, I will have the Board send in to you a statement that Mr. Griggs more than met the requirements of the high school course. His diploma would be evidence to you that he graduated but I understand that you want a statement of his grades.

Kindly inform me what you intend to do with Mr. Griggs. Sincerely yours A.C. Payne.
