

Baltimore,

10/4

1886

My dear Sir,

Yours of Oct. 1st is
just received. Dr. Kaestlin is German
Swiss, studied in different German Uni-
versities and took his Ph.D. degree with
Fritz Neumann, in Freiburg (i.Br.), has
lived for some time in Paris and England.
Speaks Fr. like a Frenchman - is now Privat-
Dozent at Geneva where all his lecturing
is in French. He is about 25-28, I
should say, unmarried. I know nothing
of his matrimonial prospects. I send you
herewith a short article of his pub? in "M.L.
Notes". I now have another article for
this no. which I will send you as soon
as published. I regret that I have not
a copy of his thesis and of other articles.
He is considered one of the brightest and
best men they have in Germany & day.
His Photograph is good but does not
flatter him: he is a thorough gentleman

1. of your manners and charming social qualities. You could not possibly do better, I think anywhere. - Will let you know if I get anything else about him.

Yours very truly,

A. M. Elliott
