

EARLHAM COLLEGE,
DEPARTMENT OF MODERN LANGUAGES.

Richmond, Ind., May 14th 1886

My dear Dr. Jordan:

I have just received the enclosed letter and photograph from Mr. Albert Jonas and have written to him that his application will be duly considered. I feel however very little confidence in a man who places himself before the public in this manner and writes about himself as Mr. Jonas did in the letter addressed to you which you sent me. At any rate, whatever kind of a man he may be personally, his testimonials certainly witness much more to his ability to teach Mathematics and Physics than German.

Yours very sincerely
Hans C. G. von Sagemann.
