

THE INDIANA UNIVERSITY,

REPORT OF THE DEPARTMENT OF _____

188 _____

TO THE PRESIDENT OF THE UNIVERSITY:

Report of the Professor of Zoology.

In order to do justice to the work in Zoology, especially that which is elementary, the professor should be able to give it his continuous attention. It has been impossible for me to do this and to attend at the same time to the duties of the Presidency. The selection of Dr. Kingsley as associate in this department has thoroughly remedied that difficulty and restored the work of the department to its former degree of thoroughness.

I recommend that the requests of Dr. Kingsley and Mr. Humphrey be considered separately, and not with mine.

THE INDIANA UNIVERSITY,

REPORT OF THE DEPARTMENT OF _____

188_____

TO THE PRESIDENT OF THE UNIVERSITY:

For the work in Vertebrate Zoology I shall need a small sum, \$100 during the year, for additions to the Museum and for bottles and alcohol. During the summer I hope to make some collections in Greece and in Norway, and for these I may need about \$150 more. I have the following classes for the present term -

Evolution - Juniors	- 14
Ichthyology - Juniors	- 3
Terrestrial -	- 6

Respectfully submitted,
David S. Jordan
Professor of Zoology.
