

Bloomington, Ind., Sept. 17, 1892.

Mr. Horace Ellis,

North Vernon, Ind.

My dear Sir:--

I have considered the report which you have presented from Butler University and have also had an interview with Prof. Aley in reference to the matter, and also with Prof. Boone. I think now that you can finish with us in one year provided that you can carry four studies, that is make twelve credits. You can receive from your Butler work probably seventeen credits. You can also get from Prof. Boone for your experience as a Supt. &c two or three credits in Pedagogy. Your outside ^{work,} as you have represented it, in science and ~~any~~ other subjects, and also your experience as a teacher would bring three or four more. That would leave you in the neighborhood of twelve credits to complete our

H.E.-2

course. If you can tell Prof. Boone (by letter) just what you have done ~~in~~ professional work in pedagogy, not merely book work, but actual work in connection with schools, ~~he~~ he can definitely state whether you can receive one or two credits from him. At any rate you can count on being able to complete your work here with one year's hard study.

I return with this your letter from Pres. Butler, and have made a memorandum on the back of it so that when this letter and memorandum are presented to me, the matter will not have to be opened up and discussed afresh.

Hoping that this will be satisfactory, I remain,

Yours sincerely,

John M. Coulter

Dictated.
