Dr J M Coulter
Bloomington
My dear Sir

Your favor of yesterday received. I have no recollection of promises made to Professor Bryan, but I do know that the Board will try & fulfill its promises.

It appears that Dr J wants all our young professors sent off for a year or so that they may be trained for him. He was very anxious for Bryan to go, I know; and believe now, he just wanted to see how he would develop.

Some things make me mad, and I feel as though I'd like to employ a good hand to do some fine "Cussing".

But to more pleasant thoughts. Am glad to hear of the large enrollment for the year. Suppose you write & get the sentiment of the other members of the Board on the Bryan question. I should dislike to have him leave us. Your Truly, J. L. Mitchell
