My dear Dr Coulter.

Your favor of yesterday duly rec'd. & I hasten to answer. Would regret exceedingly to lose Prof. Woodburn, and individually am more than willing to vote for a \$2000 salary, if the funds of the University will permit. I suppose you have written to the other members of the Board, and especially should you write to those on the Finance

Committee - Leyden et al. Am sorry to know that Dr Ross is going from us; but I have faith in ^{you} ^{+ believe} that you will find some one as good as he, to take his place. Though Garfield died, the "Government still lives" - And though Jordan, Gilbert Swain & Co left us, the University "still lives", & I believe is now prosperous, & has brighter prospects before it, than ever it had in the past. The enrollment is certainly very gratifying. Sincerely Yours,
James L. Mitchell
