

Am Kuppergraben, 6,^{III}

Berlin, U., Germany,

Oct. 15. 1891.

Dear President-Coulter,-

Since receiving your letter last August, I have spent a quiet and restful vacation in Leipzig and Dresden, and am now once more beginning work here in Berlin. The penicillin affair will, and I am in hopes of leaving as pleasant and as profitable a year as last year proved to be.

During my stay in Germany, I trust you will not fail to call my attention to any points or matters which can with advantage be investigated here whereby the work of the department may be rendered more efficient - a year from now.

Very truly yours, Benj. W. Snow.
