SUBJ. Faculty Council Agenda

DATE. February 18, 1964

I should like to have put on the agenda for the Faculty Council, for consideration when opportunity affords, a request by the Graduate Council of the Graduate School to permit the use of plus and minus with grades in Graduate School courses. This is desired in order that a sharper differentiation may be made among students than is now possible, since only the grades "A" and "B" are pass grades for graduate students.
