COMMITTEE REPORTS

Informal reports were given by Senator Hartnett of the Activities Committee and Senator McSherry of the Education Committee.

Senator Dabagia, chairman of the Elections and Petitions Committee, presented a formal report which suggested that the SEC give weekly reports to the Senate at least four weeks in advance of each major election. Senator Dabagia's committee is now drafting a bill to this effect. The Elections and Petitions Committee is also considering possible revisions of the Student Government Elections Code. This committee report was adopted by the Senate.

Senator Boner presented a formal report from the Ways and Means Committee which dealt with the 1957-58 Student Government budget and the liason officer to the Bloomington City Council. The total planned expenditure for Student Government this year is \$2148.60. The budget is in effect from November 1, 1957, to October 31, 1958. This committee approves of the President of the Student Body appointing a liason officer to the Bloomington City Council representing Indiana University Student Government. On the suggestion of Senator Foulkes, Senator Boner is checking into the reason why the Senate is sending material to two duplicating offices. Senator Norman suggested that future liason officers be graduate students from Bloomington. She stressed the importance of sending the right kind of representative.

NEW BUSINESS

Senator Hartnett gave the first reading of A Bill to Establish A Campus-Wide Leadership Training Program. The bill was referred to the Activities Committee.

Senator Dabagia urged senators to read and give suggestions on the rough draft of the bill mentioned in his report.

Senator Foulkes gave an informal constituency report. Next week Senators Cast, Boner, Admire, and Black will present their constituency reports.
