

Copy: of a letter, sent to Dr
Yorke May 28th 1838.

"At the last meeting of the Board I was not prepared to report to the Library committee of which you were chairman, the books &c not having then all arrived. You took it upon you to report to the Board without waiting for any report from me. Your conduct in this whole affair has been such as to compel the resolution on my part to make no report to any committee of which you are either chairman or member. I shall report to the Board."
