

Washington Aug 30th 23

Dear Sir

Mr Tod will deliver you
my receipt for one hundred &
ten dollars. I'm highly gratified
to find you are doing so well; &
I wish you when you leave Paris
to leave some one of our pupils as
your successor.

Our college is doing as well as
all things considered we could ex-
pect:— the vessel has to be propelled
by hard rowing against wind &
tide. Our number of pupils I
believe I wrote you is 72. A cat-
alogue just published from our

antagonist makes their number
110 some of whom are there & the rest
have been. The same document shows
or declares that Fluxions Political
Economy Ancient Geography & some
other things are taught there! Grand
Judaicus Appella - non Ego?

Mr Scott has begun to make
chemical experiments & succeed
well, considering the smallness of
our apparatus.

Give my kindest respects
to Judge Mills my quondam precep-
tor. His looks & figure are this
moment as fully in my "mind's eye"
as tho' he were actually present.
The Lord preserve you
to W. W. Gifford
Yours Andw^d py air

Mr. McGuffey

Paris N.Y.

Rev. A. Todd
