New Business:

Dr. Bryan presented two requests which a previous Board had made of him and asked that we consider them. The first concerned a motto

for the Bryan room. He had suggested the following: "With our eyes fixed upon the summit, we love to walk upon the plain."; or, "The heights attract us, not the upward climb.". The previous Board rejected these. His second task had been to make a list of books for the shelves in the Bryan Room. He discussed the various lists of the world's greatest books. He then presented Pres. Hutchins' theory that the most important part of education is to read great books and Dewey's answer that men with this kind of an education would not fit in the modern industrial world. Realizing that to complete the task would not only require expert advice as to the sets, editions and bindings, but a knowledge of both the classics and science as well, he temporarily gave up the job. He concluded by requesting only that the Board consider these problems.

Toy reported that provisions have been made for the Yell Leaders to go to the Northwestern game. They must furnish their own Transportation.

Pres. Wallace appointed Patton chairman of the Record Hour committee. The new appointee will take over Patton's old job.

The Campus Chest has requested the use of Alumni Hall free the night of their dance. It was felt that this might not be a desirable move. The President isto be asked to appear next week at 8 P.M.

The question of the Union Board's space in the Arbutus was raised. Graves moved we pay for two pages. Wallace seconded. The motion was carried unanimously.

The question of whether or not the men to interviewed for the vacancy on the Board should have 15 hours outside of ushering in order to be qualified was brought up by Graves. In accordance with the recent constitutional amendments, Wallace moved that the general scale be set simply at 25 hours. Quear seconded. The motion was carried unanimously.

Mr. Smith made his financial report which concerned the last fiscal year ending June 30, 1947. Most of this report is carried in condensed form below. He also explained that of the \$6.75 taken out of the student fees each semester, \$6 goes toward paying off the bonded indebtedness on the building and toward establishing a sinking fund for future construction. The bonded indebtedness will be paid off in 1951.
