Real Music in Your Home

You can surprise your guests with the wonderful art of Harold Bauer, Rudolf Ganz, Carrie Jacobs-Bond and other great pianists when you have an Apollo in your home. As they go into dinner touch a button and the

APOLLO

will reproduce exactly the playing of the master pianists. Every note, every change of tempo, every bit of delicate shading is just as it is when the artist plays, for the rolls of the new Apollo are perfect records of the playing of the pianist.

While the Apollo is most wonderful when thus used as an entirely automatic reproducing piano, you can, when you wish, change the artist's interpretation. You can even pedal the Apollo as you would any other player, or use it for hand playing.

Come in and see it, even though you have no thought of a purchase.
