Sig-loo Big - loo had an ig - loo in the Klon-dyke Val-ley,
Sig-loo Big - loo sold his ig - loo to a griz - zly min-er,

Big-loo loved a South-ern gal named high Brown Sal-ly, So when this
It be - hooved him to move in a home a whole lot fin-er, So when he

fur-lined Es-ki - mo struck pay-dirt in June-au, He wrote a note and
swapped his long green roll for a home and a to-tem pole, He fired up for

popped the ques-tion to his Pal-ly, But Sal was a gal that liked a lot of warmth you
Sal and vowed led wine and dine her, His "Brown" rolled a-round one ver-y hap-py Christ-mas

CALORIC WARMTH

- in the Land of the Midnight Sun

Battling the cold of Alaskan winters; carrying comfort into the homes of Canada; supplying its cheerful warmth in bleak New England; dispelling the chill from the homes of Florida—in over a hundred thousand buildings, in every state in the Union, the patented CaloriC Pipeless Furnace has carried its cheering message of warmth and comfort.

A CaloriC in your home means an efficient central heating plant in the basement instead of several stoves in the house. It means guaranteed comfort *in every room* on the coldest days of winter. It means a saving of $\frac{1}{3}$ to $\frac{1}{2}$ your fuel; temperature regulated from the first floor as easily as pressing an electric button; *clean rooms that stay clean.*

CALORIC

THE ORIGINAL PIPELESS FURNACE TRIPLE-CASING PATENT

LETTER FROM ALASKA

Juneau, Alaska, Jan. 22, 1920.
I have in my house one of your No. 48 CaloriC Pipeless Furnaces. We are quite pleased with it. There are two points that particularly appeal to me: It is economical of fuel, and it so seldom needs replenishing. With it I have heated our seven-room house, through the months of November and December, at the expense of 1 $\frac{1}{4}$ tons of soft coal screenings per month. By putting in a good fire at eight in the morning, it requires no further attention until six in the evening.

IN SUMMER PREPARE FOR WINTER

The CaloriC heats buildings of 18 rooms or less through *one register*. The ideal heat for homes, stores, churches, factories. Usually installed in a day. No plumbing nor alterations. Burns any fuel. Costs less than the stoves necessary to heat same space.

The CaloriC is a quality product, made by the largest manufacturers of warm-air furnaces in the world. Sold on a money-back guarantee to give you *heating satisfaction*.

We advise summer installation, when service can be rendered much more satisfactorily. See nearest CaloriC Dealer or write today for book giving details of CaloriC heating.
