Everyone Interested in Music Should Have These Valuable Books

SO SIMPLE A CHILD CAN MASTER THEM

GEO. L. SPAULDING'S

NOTE-SPELLER

Trade Mark Registered 1911.

They are the biggest little books ever published.

If you are learning to sing or play the piano, organ, violin, cornet, clarinet, flute, trombone or any other musical instrument, these books are almost an absolute necessity, for they will save you hours and hours of study.

Mere words do not convey their importance as an asset to both teacher and pupil, they must be seen to be appreciated.

Read what some of the most prominent pedagogs have to say regarding them:

GUSTAV L. BECKER—"Bound to be successful."
EDWARD BERGE—"I shall use both and recommend them."
CHARLES DENNE—"Ought to be very popular."
F. E. FARRAR—"I shall use them myself."
ARTHUR FOOTE—"I should say they would answer their purpose well."
HENRY L. GIDEON—"The books will come into wide popularity."
CHAS. A. GRIES—"I positively shall use them."

CHRISTIAAN KRIENS—"I will be glad to use them in my school."
ERNEST R. KROEGER—"Will become a standard."
RAFAEL SAUMELL—"I congratulate Mr. Spaulding."
LOUIS STILLMAN—"Teachers should join hands in extending thanks to Mr. Spaulding."
MADAME TEALDI—"Just the works so long desired."
J. VAN BROEKHOVEN—"I consider your books indispensable."
C. I. VALENTINE—"They fill a long felt want to all teachers."

SKEPTICS ARE CONVINCED ON SIGHT.

FINGER PRACTICE

IN THREE VOLUMES

By **RAFAEL SAUMELL**

The product of practical experience and the only work with its laudable mission on the market, *i. e.*, to give the muscles of each finger the necessary ability to properly execute all intricate passages with apparent ease.

The flattering testimonials received from pedagogic authorities prove that these books are destined to become thumb-marked volumes in every ambitious student's library. The exercises for the passing of the thumb are an acquisition indeed. Mechanically they represent the greatest excellence in engraving and printing, the very best material being used throughout.

Piano Exercises for Developing the Fingers

By **LOUIS STILLMAN**

In order to become an accomplished pianist it is necessary to have perfect control over the muscles of the fingers. The exercises contained here have been constructed mainly for that purpose, and if systematically practiced cannot help but bring the necessary result.

The work faithfully lives up to its title, for it has a mental and muscular influence on the mind and fingers which encourages confidence and ease in playing in any key and scale.

A Practical Piano Course for Beginners

By **EDUARD HOLST**

This work starts the pupils at the very beginning and carries them by easy stages, step by step, to the early third grade music. The technical explanations are most easy to understand, and never does this course of instruction become tiresome to the student. At every opportunity the composer has inserted a recreative melody, rather than a tedious exercise.

This is the most remarkable Music Book proposition ever offered to the music loving public, for in addition to their contents being made up of universally famous compositions, each volume has a beautifully tinted life-like autographed portrait of a musical celebrity, together with a brief story of his interesting career.

Each piece has been especially edited for this series, and the printing, paper and binding beggars description.
